YESTERDAY a man jumped from the 18th floor of New York's Empire state building.

Why does that interest every one?

Only the last few floors count. They are "the harder." Why would the average man find it more difficult to leap from the 18th floor than from some floor lower down?

ONLY a few more days after this day's election, it has not been a pleasant or inspiring experience.

Mr. Rogers says: "The president's term should be six years, not four, and required for life on half salary."

The cowboy-philosopher for once is mistaken. No terms are necessary. The president, wherever he

EDMONTON, Nov. 5.—More than 90 per cent. of Rumsey district wheat growers, gathered in mass meeting here, unanimously decided in favor of a nation-wide strike of Canadian farmers to take place before the 1933 seeding season.

The meeting accepted a resolution advocating refusal to sow wheat in the coming season. It was unanimously decided to tie up seed in the district.

Some concern has been expressed in the European journals and cable dispatches from Ireland over the dedication of Northern Ireland's parliament house by the Prince of Wales and considerable opposition to his appearance there has been shown, however, the Prince is not frightened.

At the sides, the active heads of the two Irelands, left, Lord Craigavon, premier of Northern Ireland, right, Edwin Lee Waters president of the Free State.

CANADA STOCK HAS YIELDED \$56,000,000

But Millions Coming Out Less Speedily for Federal Gov't Loan

TORONTO, Nov. 5.—This has been "shell-shock" week in Canada. Since early Monday morning the drive has been on for the market of the federal government's \$80,000,000 loan. Already the Canadian stock has yielded \$56,000,000, but as the week draws to an end the millions are coming out less speedily.

Apparently the small investor is still cautious. The market is still with the institutions grabbed the loan to the extent of their present available funds. It is expected that a realization that money rates are going to be low will be a factor and that possibly five years from now 10 per cent may be a realistic rate for a first-class security.

SECOND TERM FAIRLY EARNED

The Mayor of Edmonton has three distinct duties to perform.

He is the presiding officer of the city council. He is the city's official representative on ceremonial occasions and in dealings with other municipal councils and with the Provincial and Dominion Governments.

He is a member of the board of commissioners, and as such is responsible for carrying into effect the policies and decisions of the city council, whether or not he happens to agree with them.

In all three capacities of duty he must carry through an unusually difficult year with credit to himself and general satisfaction to the citizens.

As chairman of the board of commissioners, courteous and considerate. From no section of council has there come a complaint that he was biased in his rulings or decisions in matters of city council.

As spokesman for the city he has given a fitting welcome to distinguished guests and extended appropriate greetings to important gatherings. He has urged the rights of interest of the city upon the attention of the Provincial and Dominion Governments, aggressively but never offensively.

As commissioner in the past trying year of the city executive ever saw. Mayor Knott has held a position that few could find. That he met the problems of the city as they came, and that he had the kind of criticism that has been raised against the administration.

It is the established custom in Edmonton to elect for a second term a Mayor who has shown fitness for the position in his first year. Mayor Knott has earned that recognition at the hands of the citizens.

It is to the city's interest to continue him in office. The problems of the last year are in the past. The problems of the future are in the future. The Mayor has shown the kind of leadership that the city needs.

The city should not be penalized because council refused to let men go hungry and encourage relief. Relief to single men is costing Edmonton \$4000 per week.

WILL CANADA CONVERT?

Great Britain has converted its five per cent bonds into three per cent. The saving to the taxpayers will amount to \$20,000,000 per year in interest charges, about \$10,000,000 in Canadian funds on a par basis.

Canada should be doing some converting itself. There have been doing it actively for the past year. If Britain can cut its interest rate two per cent, Canada should be able to do it at one per cent.

That would leave the rate paid on Government bonds higher than the rate paid on savings bank deposits. Why should one Government pay one and a half times as much rent for money as the banks pay?

There has been considerable newspaper talk recently about the Canadian Western Railway, to be built by way of the Jasper Pass, the money being raised in Chicago. On the subject of Chicago Herald says: "The rumor that \$10,000,000 has been raised in Chicago for building a new Canadian transcontinental line from Victoria is founded mainly on error or equivocation in the National Park. The money has not been raised and no one but the promoters could be found who believed it would be."

M. H. Boulin has sold his half-interest in the St. Albert cheese factory to M. Martineau.

A branch land office is being asked for Westwain station, 40 miles south of Edmonton. It is the site of a magnificent tract of country extending far to the eastward, which has attracted more settlement this season than any other point on the C. and N. line except Edmonton.

SIDE GLANCES - By George Clark

From Chicago comes a story of a 2-year-old house which had very dirty corners of her 11-year-old wife—the mother of two children—should wear her hair. He commanded her to leave it unbound.

When returned home with her hair trimmed one day last week, the husband, Mr. Dolan, looked himself in his bedroom and blew his brains out.

Wonder if this explains why so many wives want their hair bobbed?

Today is Guy Fawkes Day in the old north and the solemn service, through the cellars of the House of Parliament will take place in memory of the plot to blow up and raise the level of Parliamentary life.

It is no laughing matter, either. It has "generated into day of honor for the younger generation to set off fireworks, just as the Eve set off the day of the churchmen for the unrepentant saints—has become with us All Hallows' Eve."

There is a disposition in Democrat quarters to let the President phrase "The Virginian"—especially since some of the feminists have called meetings to consider the lot of "the forgotten woman." They include more than gold waders in the water.

If you want to see a picture of a "forbidden man" gaze upon Jimmy Walker, still Mayor of New York but no longer believed of Tomorrow. Jimmy has too many things to answer for if they are not forgetting him. Author and composer of the old ballad "Will you love me in December as you did in January" is now in New York. The New York Times doesn't even love him in November as they did in October.

35 Convictions Under
Game Act This Season

Provincial Authorities
Have Taken Action on
Larger Scale

During the last two months, no more than 25 convictions have been registered in this province for infractions of the Game Act, according to Stanley H. Clark, provincial game commissioner. Officials have taken action on a large scale to enforce provisions of the law.

Most convictions so far registered have been for shooting without a license, this offence being responsible for nine persons running afoul of the law.

Four hunters have pleaded guilty to the offence on Sunday while five were caught in possession of tuffed grouse, on which there is a close season.

For shooting on enclosed land without permission four persons were convicted.

USE LIVE DECOYS
Seven convictions were entered against duck and geese hunters, while two United States visitors who caught geese and live decoys paid the penalty of the law for their illegal action.

A hotel-keeper near this city was convicted for offering game birds as a special attraction and inducement to his dining-room menu.

It was stated that government grants would probably be reduced for the province if the provincial government for the year 1933-34 is not approved.

Mr. S. H. Westcott, president of the association, and Mr. J. E. Brown, managing director, were appointed delegates to the Royal Winter Fair, at Toronto, which opens November 10 and 11 in Chicago Mr. Abbott, president of the last named association, was also present.

DETERMINE POLICY
The meeting of the Canadian Association of Exhibition Managers, held at Toronto, will be attended by the Hon. Robert Weir, federal minister of agriculture according to Mr. Abbott, it is probable that the policy of the Dominion of livestock exhibitions will be determined by that meeting.

C. C. Bolton and Mr. Westcott, who have been in charge of the exhibition, will be in charge of the exhibition at the Edmonton Exhibition Board.

Some discussion was gone into the advisability of using, owing to the 1932 summer drought, for the purpose of advertising the 1933 exhibition. The manager made a recommendation to the next meeting.

Southern City Today

Anticipating setting of the date for the by-election at Calgary, to fill the vacancy caused by the death of Dr. W. McCall, Conservative, by reason of his acceptance of the post of medical superintendent to the (Montreal) department of Indian Affairs, W. R. Howson, leader of the provincial Liberal forces journeyed to Calgary on Friday night to meet on Saturday, leading Calgary Liberals to discuss plans for contesting the post.

It is expected that the Liberals will deliver a strong bid for the seat to provide a running mate in the Legislature from Calgary. For Geo. H. Webster, former House leader and John D. Howson.

Mr. Howson is expected to depart for Calgary on Saturday night, after a strong candidate would be placed in the field. There will be ample opportunity for the Liberals to choose and he feels that whoever is chosen will receive strong support.

Bitter Struggle Expected In Grid Final Today

LIBERALS ARE CONFIDENT OF TAKING SOUTH

Altogether at Full Strength For Junior Clash at Renfrew Park

Renfrew Park will be the battle front this afternoon for all sport followers in Edmonton when the long looked-for gridiron clash between Young Liberals and Calgary Alberta (a very sharp) takes place at three o'clock. It is the second and final meeting of these two squads for the junior football championship of Alberta.

Calgary Alberta go into action with a 10-point lead over the home team, but in the argument down town last week ago. The Griz are not taking their opponents lightly and realize that overcoming the lead is a big order, but their figure Calgary is certainly not too town down.

Coch Brown attributed the defeat last week to overconfidence. When the Liberals dropped on the field against Altogether it marked their fourth game in the short run of a week. They were a weary squad, especially after a night bout of 500 miles. Even in this case, the Liberals battled the cheerfulness to the bitter end and it was not until the last quarter that Calgary began their scoring.

This afternoon it is practically a new team, as far as conditions and spirit goes, that will be tackling the Altogether. The warriors carry the hopes of Edmonton and fresh, full of spirit and ready for the battle of their careers.

Confidence does not lack in the Southern camp, however, and while the Griz were terrible thugs last week, they are not so today and his troops are equally firm in the thought that the provincial title is going back to Cow Town.

Junior games never lack for dash and drama. This afternoon's game is no exception. The Griz have a new high in this respect. Two sets of legs were seen before the game, and the Griz were equally firm in the thought that the provincial title is going back to Cow Town.

It is a big order but nevertheless there are many who believe the fighting local youngsters can win the title.

One of the interesting features of the game is the fact that the Griz have a new high in this respect. Two sets of legs were seen before the game, and the Griz were equally firm in the thought that the provincial title is going back to Cow Town.

May Meet Today's Winners

One of the West's strongest threats for the Junior Canadian football championship of the Dominion is once again the Moose Jaw Maroons, who may play the winners of this afternoon's final here between Edmonton Young Liberals and Calgary Alberta. Last year, this team only lost out for the Canadian title by one point, and this year they hope to overcome that narrow defeat.

Coach Allan Wilson, general manager, has led the team through the Saskatchewan season without a defeat in six games. The lineup below shows five outstanding members of the team: (1) Tony Thompson; (2) Ted Lydard; (3) Percy Peterson; (4) Dave Durbin; (5) Freddy Hildred.

Gossip From Puck Camps

Hard-shooting Charlie Conacher started Toronto Maple Leafs in the first round of the playoffs.

Poor shooting, combined with poor work by goalie Lester Chabot, cost the Leafs a game.

At Ottawa, the politics had all the better of the argument in the district between Billie Joe Simpson's New York Americans and the New York Rangers.

Reg. "Honey" Smith, brilliant right winger of the Montreal Maroons, is expected to be traded.

Triple Threat Man. When injuries forced Davey Dwyer, who had been regarded as the best of the junior players, to leave the team, it was feared for a time that his absence would not only weaken the team, but also weaken its spirit.

Lost Six Players. When the Griz were defeated by the Maroons, it was a real battle.

WHEAT PRICES ARE REGAINING LOST GROUND

WINNIPEG, Nov. 5.—Canadian wheat prices continued to show signs of recovery today, but the market was still weak. The Winnipeg Grain Exchange today, after a week of steady decline, showed a slight recovery. The market was still weak, but the prices were beginning to show signs of recovery.

Canadian export trade amounted to only 800,000 bushels and there was still a surplus of wheat at the mills. The market was still weak, but the prices were beginning to show signs of recovery.
